South Paris

(Continued from page 1)

Annual Meeting of Board of Trade South Paris, Me., was held at the hotel meeting at the Odd Fellows' dining room, on the evening of January 19. The banquet served at 6:30, by the committee of Charles H. Kimball, was all that could be desired. The menu was furnished by Alfred C. Vining, Miss Cota, trumpet, and Mrs. Ida Neal. All joined in songs, led by Principal C. S. Fuller.

The meeting was called to order by President Robert W. Wheeler. Report of the treasurer, R. W. Tuttle, indicated about \$40.00 had been overdrawn from the regular funds, although this had been covered by special fund.

President Wheeler, chairman on the community action and on the square made a report showing total receipts \$504.49, which had been paid, plus \$55.36 as a deficit. After some discussion about making it up out of taxes, it was voted to pass the list. Going the rounds netted \$71.70.

J. Harold Neal, for the Publicity Committee, reported the work for the year. The following officers were elected: Pres.—Ralph R. Bates. Sec.—Harry A. Morton. Treas.—Harry A. Morton. Second Vice Pres.—Harry A. Morton. Sec.—Harold C. Fletcher.

George R. Morton, as speaker of the evening, gave an interesting talk on local affairs. The first of a Big Scrabble in the Town of Paris a Hundred and Fifty Years Ago was historical and gleaned from an old record book now in custody of the town clerk. The second was suggestions for saving twenty thousand dollars a year for the benefit of the people of Paris.

Library Association Completed. The organization of Paris Library Association was completed at an adjourned meeting, Saturday evening. A copy of the by-laws had been found and used in part by the committee appointed to draft new regulations.

Harry A. Morton, elected president at a former meeting, declined the office and Dr. M. Stewart was elected president. Mrs. Elsie Chapman is acting librarian. The president's officers as they now stand are as follows:

Pres.—D. M. Stewart. Sec.—Harry A. Morton. Treas.—Harry A. Morton. Second Vice Pres.—Harry A. Morton. Sec.—Harold C. Fletcher.

A business meeting of the Association will be held at the building, Monday evening, Jan. 31, at 7:30. Important matters will be taken up.

Harry W. Morton returned from his work for the International Paper Co. at Wrentham, the last of the week. His parents, Mr. and Mrs. George R. Morton, and he sailed Monday afternoon on their trip to California and Honolulu. Mr. Morton, son of the late George R. Morton, was by way of the Panama Canal to California, and Mrs. Morton went by rail to meet them, in California, and go home to Hallowell. They will visit their daughter, Mrs. Isabelle Fish, at Santa Barbara.

Voted to Raise More Money

At a special town meeting in Association Hall, Saturday afternoon, the treasurer was authorized to make temporary loans not exceeding \$7,000. This action was necessary for there was not sufficient money in the treasury to pay the school teachers until the March meeting. The sums paid will be from the appropriations already made for teachers' salaries.

John E. Everett, Grand Chancellor of the Knights of Pythias of Maine, was a speaker at the 46th anniversary dinner of Ivanhoe Lodge, at Falmouth Hotel, Portland.

Olin B. Tracy, who leaves for Skowhegan, received a testimonial of appreciation for his work in the Club.

Each year Central Maine Power Company pays well over a third

Each year Central Maine Power Company pays well over a third of a million dollars in taxes—over a thousand dollars a day, every day of the year.

If Maine people will authorize the export of surplus power, Central Maine Power Company can profitably spend millions of dollars more within the next few years for power houses and transmission lines.

This alone should yield several hundreds of thousands of dollars more each year to the State and to the counties and towns in which the constructions are made.

These larger and more efficient power houses and lines will enable the Company to generate power cheaper than has ever before been possible. This REALLY CHEAP energy should attract very large users of power to Maine as it has to Niagara Falls.

These new industries should in turn attract dependant industries; cause new and bigger communities; still more taxable property.

This growth, which could be conservatively estimated to come to Maine within the next ten to fifteen years, should yield millions of dollars yearly in new tax money. This should mean either lower taxes for Maine people—or more for their tax money.

Challenge the present law against the export of surplus power and Maine can easily hope to get this new prosperity.

THE CHRISTIAN OVERCOMING TEMPTATION

LESSON TEXT—Luke 4:1-13; 1 Cor. 10:12, 13.

GOLDEN TEXT—In that He Himself hath suffered being tempted, He is able to succor them that are tempted.

PRIMARY TOPIC—Obeying God Always.

JUNIOR TOPIC—How to Stand Against Temptation.

INTERMEDIATE AND SENIOR TOPIC—How Christ Overcame Temptation.

YOUNG PEOPLE AND ADULT TOPIC—How to Overcome Temptation.

Christ's temptation was Messianic. No one has ever been tempted just like He was—led into the wilderness by the Holy Spirit to be tempted of the devil (Matt. 4:1). While we are not tempted as He was, the devil uses the same methods on us. This temptation was not:

1. A preparation for His work, but rather its first conflict. In His baptism we have the symbolic act of the dedication of Himself to the work of redemption through the cross—the making full a righteousness.

2. It was not to see if Christ would stand fast, nor to see if He would fall under the most cruel test. He could not have failed.

3. It was to show Christ as an object upon which we may rest our faith with unshaken confidence. He came as the second man, the head of the new race. The temptation therefore was a demonstration of the inseparableness of the divine and human natures in the incarnation.

1. The Temptation of Christ (Luke 4:1-13).

1. The place (v. 1). The wilderness of Judea. The first man, Adam, was tempted in a garden with the most pleasant surroundings. The second man, Jesus Christ, was tempted in a barren wilderness surrounded by wild beasts (Mark 1:13).

2. The method (vv. 2-12). Christ as the world's Redeemer sustained a three-fold relationship—Son of Man, the Messiah and Son of God, therefore Satan made each one a ground of attack.

(1) As Son of Man (vv. 2-4). Satan made his first assault upon Him as a man by appealing to the instinct of hunger. Satan urged Him to use His divine power and convert a stone into bread. Hunger is natural and sinless. Real human life experiences hunger. The temptation was in satisfying a right hunger in a wrong way. He has yielded in this case, though His hunger was desperate, would have been to renounce the human limitations which He had taken for our sins. In the incarnation He became identified with humanity, so He chose to abide in fellowship with man.

(2) As Messiah (vv. 5-8). Here the temptation was to grasp His rightful dominions by false means. The devil offered to surrender unto Him the world if He would adopt his methods—worldly him. The force of this temptation was in the fact that the kingdoms of the world are Christ's by God's covenant with Him. God's method by which Jesus was to possess the world was the sacrificial death on the cross.

(3) As Son of God (vv. 9-12). Here Satan tries to induce Christ to presume upon God's care. He quotes a Messianic Psalm to induce Him to do so. To do the spectacular thing in order to get notice is to fall into Satan's temptation. For Jesus to have placed Himself in danger in order to get God's special help in delivering Him would have been to sin.

(4) Christ's defense (vv. 4, 8, 12). It was the Word of God. He met and repulsed the enemy with "It is written." Our defense is God's Word. (5) The issue (v. 13). Satan was vanquished.

II. The Temptation of Believers (1 Cor. 10:12, 13).

1. Temptation is to be expected (v. 12).

From the appearance of Satan in the Garden of Eden on down through the ages men and women have been assailed by the tempter. These facts are God's admonitions and warnings upon whom the ends of the world are come. Caution is always necessary. Over-confidence is most perilous to those who rest in the security of their divine election while neglecting a life of holiness.

2. Divine help available (v. 13). All temptations which come to us are those which are common to the race. No one should surmise that his temptation is peculiar. God is faithful and will not allow the temptation to go beyond the ability of the one tempted. He will provide a way of escape.

Through the Needle's Eye Before the camel passed through the eye of the needle, they took the burdens off his back—King's Business.

God's Cross God lays His cross upon those whom He loves, and those who bear it patiently gain much wisdom—Luther.

Praise Praise is contentment rippling over into gladness, like the music of the brook—Mark Guy Pearse.

Uncle Carl's Column

Although Maine is always popular with the classes and the masses, we are sure that it is not so popular with the masses as it is with the classes. The reason for this is that the masses are not so interested in the things that the classes are interested in. The masses are more interested in the things that are more practical and more useful to them. The classes are more interested in the things that are more intellectual and more artistic. This is why the masses are not so popular with the classes as the classes are with the masses.

Smith Street Smiles

The Conway Box Co. has resumed operations, after several days of inactivity. The company found it necessary to change the location of the separator, also to install a new blower. Don't see the sense of a new blower, as there are several old ones around on the plant. The company don't seem to have lost their capacity for blowing. A new separator would come in handy, though, if installed in the vicinity of the filters, as the separating there is done by hand and is considered a dangerous occupation.

Chief millwright, Rogers, also reports that there has been little wear and tear on the machinery, since the hauling machine appeared. The little bonus was popular with all the help.

The fitters are sad and even jolly Merrill and Pentecost are not cutting up much, of late.

Barrow's Boulevard

The stork which has been hovering around Jim Keefe Corner, recently took to the hills (glad to leave the hills) and deposited a few bits of feminine humanity to gladden the hearts of daddy (Cotton and Mrs. Hill).

As if that wasn't enough, that famous old swooper came down on the domicile of Young, and left the youngest Young of which we have any record. They named the little, cunning rascal after the Fliver Bird. (42 years old, it is said.) Don't know where the long-legged bird will light next. "Nub" Gilman's is in the immediate vicinity and Perley Morrison's is not far off but as there are numerous homes in this vicinity it is a matter of conjecture, where the next visit will occur.

SOUTH RUMFORD

Mrs. Herbert Hall and Eben Hutchinson receiving prizes for highest score and Betty Spaulding and Frederick Allen for lowest score. After a buffet lunch of sandwiches, cake and coffee, dancing was enjoyed, with music by Ivory Burnell, violin, and Homer Frost, piano. Mrs. Herman Thetford and Mrs. Arthur Cameron will entertain the club, Saturday evening, Jan. 29, at the Rumford Center Grange Hall.

Editor Weeks says: "Would advise you to look after the home product. It is advice that appears to be sound. Just as Laconia wants more manufacturing, maybe it can come through men living in the midst. Anyone we can well plan how may stop the youths going away from home."

Beginnings of the World War

A Letter from R. L. Cummings of West Paris

West Paris, Maine, Jan. 20th, 1927. Editor Norway Advertiser: There are very few things that Mr. Whitman has not brought to the attention of Mr. Kazbek in his wall that we (Germany) did not start the war.

First the speech of the Kaiser soon after he ascended the throne, the burden of which was that "The way to England was through Belgium and France" and that South America offered great opportunities for German colonization. Secondly, the German war book published in Germany about ten years before the war.

This book I read as far as my disposition would allow. It being devoted in a true German way to repetition after repetition of the military preparations essential to the attack through Belgium, France, and England's little despicable, antiquated army. They were to strike quick, overrun Belgium and France, then turn and crush Russia, and forever after, they would be a Germanized world.

Its author carefully, as he thought, estimated the German strength and efficiency and the strength and efficiency of the other powers. He estimated that Germany could bring to the attack a force of 1,000,000 men, while the other powers could bring only 500,000 men.

Had an interesting episode from Wm. Sauborn, town father of Stow. According to "Old Bill's" narrative, a crowd of about 100 men, mostly farmers, gathered in the town square, and were engaged in destroying town signs, or turning them around so that strangers motoring through his beautiful township, were at a loss to know whether they were going or coming. "If 'Old Bill' catches the outposts, (which we hope he does, even though we are in the sign business) no doubt he will transform them into upstanding citizens of their community. For it is our opinion that they wouldn't take much comfort in sitting down for quite a spell).

A heavy old hand shake, with some dear old fingers will tingle, your heart beat will be quickened, and you will feel that you are a part of the old world.

With the greeting delivered in man fashion style. (But there's one kind of hand-shake that makes my blood boil.)

The hand-shake that is so often used by those who would smile, oh so wanly, and vacantly who would smile, oh so wanly, and vacantly who would smile, oh so wanly, and vacantly.

And extend a limp paw that is bloodless and cold. The hand-shake that is so often used by those who would smile, oh so wanly, and vacantly who would smile, oh so wanly, and vacantly.

SUMMER

Snow Settled a Foot—Ben Irish Driving Steers.

Summer has the Fourth of July and Thanksgiving Day annually, but last week was the first real January here that we have had in this section for several years. There was not much rain, but awful warm weather for three days, with the thermometer up to forty-eight, and the snow settled from three feet down to two.

The short write-up of Mrs. Wiley's California trip that appeared in last week's issue of the Advertiser, should have been in the Summer column, and not in East Summer column, no harm done.

Lester Merrill and one of his men, with a pair of horses, went out Monday of this week and brought in a large load of hay.

Ben Irish is away on business for a few days, Irvie Bartlett is driving Ben's four steers during his absence, hauling birch from the Crockett Ridge between Fletcher's ledges and Allen mountain, to the Tibbets mill in the Thompson pasture.

Linn Farrar and Arthur Childs have broken their record for the number of foxes shot to date for any year, and they are going strong yet.

Jan. 25, Arlon Farrar went by the house toward the gravel work for a load of pulp with his truck. Olphie Yarnsey was with him, thought I'd better set this down before they go back.
